

Interpreting Line Plot

Jenny uses six different flowers to prepare a special bridal bouquet for her sister's wedding. A line plot is made based on the numbers of each variety of flower used in the bouquet. Read the line plot and answer the questions.

Bridal Bouquet

- 1) How many red roses are in the bouquet? _____
- 2) Seven of these flowers are in the bouquet. Name them. _____
- 3) Which flower has Jenny used the most in the bridal bouquet? _____
- 4) How many asters can be found in the bouquet? _____
- 5) How many flowers does the bridal bouquet hold in all? _____
