

Name : \_\_\_\_\_

## Identifying Relationships

Identify the type of symbiotic relationship between each pair of organisms.

1)

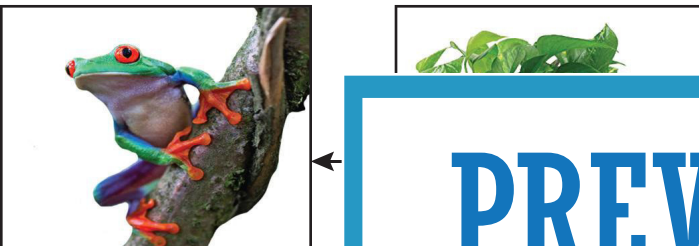

Tapeworm

Pig

\_\_\_\_\_

Detailed description: A photograph of a white tapeworm on a red surface is shown next to a photograph of a pink pig. A double-headed arrow points between the two images, indicating a symbiotic relationship. Below each image is a label box containing the name of the organism. To the right of the pig image is a horizontal line for the student's answer.

2)

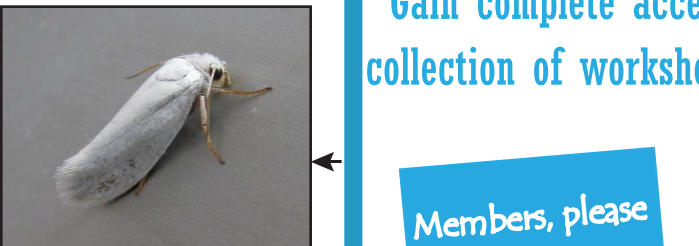

Tree frog

Burdock seeds

\_\_\_\_\_

Detailed description: A photograph of a colorful tree frog on a branch is shown next to a photograph of green burdock seeds. A double-headed arrow points between the two images. Below each image is a label box. To the right of the burdock seeds image is a horizontal line for the student's answer.

3)

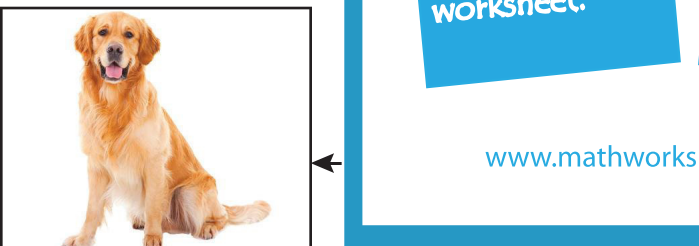

Yucca moth

Burdock seeds

\_\_\_\_\_

Detailed description: A photograph of a white Yucca moth is shown next to a photograph of green burdock seeds. A double-headed arrow points between the two images. Below each image is a label box. To the right of the burdock seeds image is a horizontal line for the student's answer.

4)

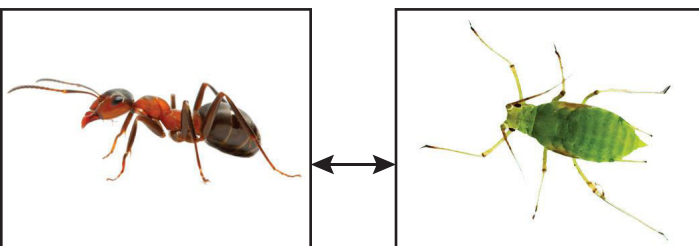

Dog

Burdock seeds

\_\_\_\_\_

Detailed description: A photograph of a golden retriever dog is shown next to a photograph of green burdock seeds. A double-headed arrow points between the two images. Below each image is a label box. To the right of the burdock seeds image is a horizontal line for the student's answer.

5)

Ant

Aphid

\_\_\_\_\_

Detailed description: A photograph of a red and black ant is shown next to a photograph of a green aphid. A double-headed arrow points between the two images. Below each image is a label box. To the right of the aphid image is a horizontal line for the student's answer.
