

Finding Slopes: Shapes

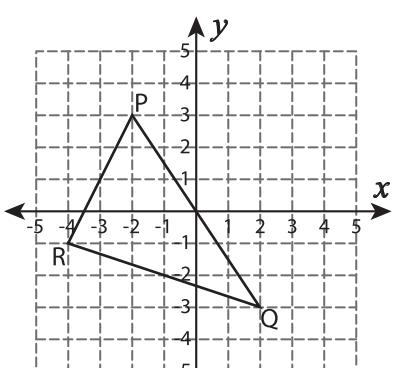

Identify the slope of each line segment, joined to form a triangle.

Slope of \overline{AB} = _____

Slope of \overline{BC} = _____

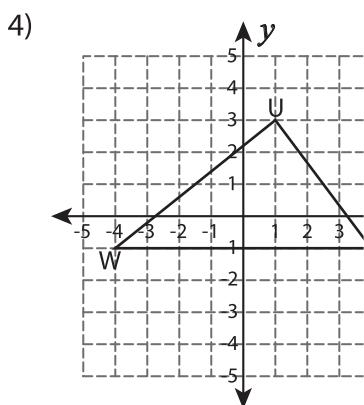

Slope of \overline{CA} = _____

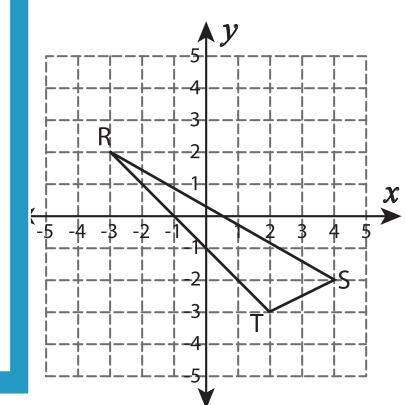

Slope of \overline{XY} = _____

Slope of \overline{YZ} = _____

$$\text{Slope of } \overline{ZX} = \underline{\hspace{2cm}}$$

Slope of \overline{UV} = _____

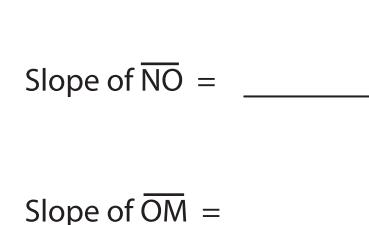

Slope of \overline{RS} = _____
