

Rules and Laws

Identify if the rule or law is violated or valued in each scenario.

1) A group of children is playing a board game, and they all take turns without any disagreements. Each child follows the rules of the game, ensuring fair play and a positive gaming experience for everyone involved.

rule is valued rule is violated

2) Daphne decided to skip class to go to a friend's birthday party. The teacher did not give any verbal warnings.

rule is valued

3) A driver speeds through a residential area and receives a citation in the mail. The driver is fined and receives a penalty.

law is violated

4) Students sit quietly during class, following the teacher's instructions. The teacher allows students to speak during group work.

rule is valued

5) A student returns a library book late. The librarian did not charge any late fees.

rule is valued rule is violated

6) A teenager consistently comes home later than the agreed-upon curfew time. His parents chose to overlook the habitual tardiness without addressing the issue.

rule is valued rule is violated
