a) How many groups of 7 can you form?

b) How many items left over? 

5) Divide into groups of 2:

a) How many groups of 2 can you form?

b) How many items left over? 

7) Divide into groups of 9:

a) How many groups of 9 can you form?

b) How many items left over? 

2) Divide into groups of 3:

a) How many groups of 3 can you form?

b) How many items left over? 

4) Divide into groups of 4:

a) How many groups of 4 can you form?

b) How many items left over? 

6) Divide into groups of 6:

a) How many groups of 6 can you form?

b) How many items left over? 

8) Divide into groups of 8:

a) How many groups of 8 can you form?

b) How many items left over?

**Answer key****Division Groups**

Sheet 1

1) Divide into groups of 5:

a) How many groups of 5 can you form?

**3**

b) How many items left over?

**2**

3) Divide into groups of 7:

a) How many groups of 7 can you form?

**3**

b) How many items left over?

**6**

5) Divide into groups of 2:

a) How many groups of 2 can you form?

**8**

b) How many items left over?

**1**

7) Divide into groups of 9:

a) How many groups of 9 can you form?

**2**

b) How many items left over?

**8**

2) Divide into groups of 3:

a) How many groups of 3 can you form?

**7**

b) How many items left over?

**2**

4) Divide into groups of 4:

a) How many groups of 4 can you form?

**8**

b) How many items left over?

**1**

6) Divide into groups of 6:

a) How many groups of 6 can you form?

**3**

b) How many items left over?

**2**

8) Divide into groups of 8:

a) How many groups of 8 can you form?

**2**

b) How many items left over?

**4**
