**Answer key**

**Commutative Property**

|   |  |
|---|--|
| 1) 7 and 11<br>Commutative property of addition:<br>$7 + 11 = 11 + 7$                 | 2) 5 and 9<br>Commutative property of multiplication:<br>$5 \times 9 = 9 \times 5$     |
| 3) 13 and 8<br>Commutative property of multiplication:<br>$13 \times 8 = 8 \times 13$ | 4) 2 and 14<br>Commutative property of addition:<br>$2 + 14 = 14 + 2$                  |
| 5) 9 and 7<br>Commutative property of addition:<br>$9 + 7 = 7 + 9$                    | 6) 15 and 6<br>Commutative property of multiplication:<br>$15 \times 6 = 6 \times 15$  |
| 7) 10 and 4<br>Commutative property of multiplication:<br>$10 \times 4 = 4 \times 10$ | 8) 5 and 2<br>Commutative property of addition:<br>$5 + 2 = 2 + 5$                     |
| 9) 8 and 3<br>Commutative property of multiplication:<br>$8 \times 3 = 3 \times 8$    | 10) 9 and 5<br>Commutative property of addition:<br>$9 + 5 = 5 + 9$                    |
| 11) 13 and 2<br>Commutative property of addition:<br>$13 + 2 = 2 + 13$                | 12) 14 and 6<br>Commutative property of multiplication:<br>$14 \times 6 = 6 \times 14$ |
| 13) 4 and 15<br>Commutative property of addition:<br>$4 + 15 = 15 + 4$                | 14) 6 and 8<br>Commutative property of addition:<br>$6 + 8 = 8 + 6$                    |
| 15) 9 and 8<br>Commutative property of multiplication:<br>$9 \times 8 = 8 \times 9$   | 16) 3 and 12<br>Commutative property of addition:<br>$3 + 12 = 12 + 3$                 |
