Score: _____

Surface Area of Cube Worksheet

Calculate the surface area and approximate your answer to the nearest hundredth:

Side = 1.2 feet	Side = 2.5 yards
Surface area = _____	Surface area = _____
Side = 4.3 inches	Side = 10.25 cm
Surface area = _____	Surface area = _____
Side = 12.12 m	Side = 9.46 inches
Surface area = _____	Surface area = _____
Side = 1.79 feet	Side = 45.8 mm
Surface area = _____	Surface area = _____

Student Name: _____

Score: _____

Answers

Side = 1.2 feet	Side = 2.5 yards
Surface area = 8.64 ft^2	Surface area = 37.5 yd^2
Side = 4.3 inches	Side = 10.25 cm
Surface area = 110.94 inch^2	Surface area = 630.38 cm^2
Side = 12.12 m	Side = 9.46 inches
Surface area = 881.37 m^2	Surface area = 536.95 inch^2
Side = 1.79 feet	Side = 45.8 mm
Surface area = 19.22 ft^2	Surface area = 12585.84 mm^2
