

2-Digit Plus 1-Digit Addition

A) Fill in the missing numbers at each step and find the sum.

1) $68 + 8 = 68 + \square + 6$

$= \square + 6$

$= \square$

2) $9 + 56 = 5 + \square + 56$

$= 5 + \square$

$= \square$

3) $27 + 6 = 27$

$= \square$

$= \square$

$+ \square + 89$

$+ \square$

$= \square$

B) 1) Break apart 7 to
