

Name : _____

Algebra: Measurement

Multi Variables: S1

Find the measurement.

1) $g = 2, h = -3$

Base = _____

Height = _____

2) $a = 3, b = 6$

3) $p = 7, q = -2, r = -8$

Radius = _____

Height = _____

4) $x = 2, y = -1, z = 1$

Radius = _____

Diameter = _____

$c = -2, d = 3$

Radius = _____

Height = _____

7) $f = -6, g = -3$

Radius = _____

Diameter = _____

Base = _____

Height = _____

Length = _____

Width = _____

Name : _____

Answer key

Algebra: Measurement

Multi Variables: S1

Find the measurement.

1) $g = 2, h = -3$

Base = 6 unit

Height = 8 unit

2) $a = 3, b = 6$

3) $p = 7, q = -2, r = -8$

Radius = 2 units

Height = 9 units

4) $x = 2, y = -1, z = 1$

Radius = 3 unit

Diameter = 6 unit
