**Finding Complementary & Supplementary Angles**

Determine the measure of each angle.

1)

$m\angle KLN = \underline{55^\circ}$

2)

$m\angle POQ = \underline{42^\circ}$

3)

$m\angle STV = \underline{25^\circ}$

$\underline{95^\circ}$

5)

$m\angle MON = \underline{79^\circ}$

$\underline{58^\circ}$
