

# Parts of an Angle

## Vertex:

The common vertex of the angle. In the above diagram, the vertex is **B**.

Vertex is the common vertex of the angle. In the above diagram, the vertex is the letter **B**.

## Arms:

The two rays that make an angle are called the arms of an angle. They are represented by two points on the rays and a 'ray' symbol on top. Here,  $\overrightarrow{BA}$  and  $\overrightarrow{BC}$  are the arms of the angle.
