

Name : _____

Types of Angles - Revision

T1S1

A) Identify each angle as acute, right, obtuse, straight, or reflex.

1)

2)

B) 1) Which of the following is a right angle?

b)

c)

2) Which of the following is an obtuse angle?

b)

c)

C) Identify the type of each angle.

1)

2)

D) Identify the type of angle formed by the hands of each clock.

1)

2)

Name : _____

Types of Angles - Revision

T1S1

A) Identify each angle as acute, right, obtuse, straight, or reflex.

1)

Acute angle

2)

Reflex angle

B) 1) Which of the following is a right angle?

~~b)~~ ✓

c) A diagram showing an acute angle. It consists of two rays meeting at a vertex, one horizontal pointing right and one pointing upwards and to the right. A small arc is drawn at the vertex to indicate the angle.

2) Which of the following is an obtuse angle?

b) A diagram showing a reflex angle. It consists of two rays meeting at a vertex, one horizontal pointing left and one pointing downwards and to the right. A large arc is drawn above the vertex to indicate the reflex angle.

~~c)~~ ✓

C) Identify the type of each angle.

1)

Obtuse angle

2)

Acute angle

D) Identify the type of angle formed by the hands of each clock.

1)

Obtuse angle

2)

Acute angle
