

Name : _____

Mean, Median, and Mode

Round your answers to two decimal places.

- 1) In a school cafeteria, the number of sandwiches sold each day was recorded for 30 days. Use the data below to calculate the mean, median, and mode.

Sandwiches Sold	0 - 20	20 - 40	40 - 60	60 - 80	80 - 100
Number of Days	4	5	1	3	3

Mean = _____ Median = _____ Mode = _____

- 2) Radar detectors on a busy highway recorded the speed of 100 vehicles during rush hour in miles per hour. Use the data below to calculate the mean, median, and mode.

Speed (mph)	50 - 60	60 - 65	65 - 70	70 - 75
Number of Vehicles	20	30	30	20

Mean = _____ Median = _____ Mode = _____

- 3) At a school library, the number of books checked out each day was recorded for 25 days. The table shows the distribution of books checked out. Use the data to calculate the mean, median, and mode.

Number of Books	0 - 20	20 - 40	40 - 60	60 - 80
Number of Days	5	10	5	5

Mean = _____ Median = _____ Mode = _____

- 4) Volunteers at a community center in California recorded the number of bottles of water sold each day. The table shows the distribution of bottles sold. Use the data to calculate the mean, median, and mode.

Number of Bottles	40 - 44	44 - 48	48 - 52	52 - 56	56 - 60	60 - 64
Number of Crates	10	12	7	10	5	6

Mean = _____ Median = _____ Mode = _____
