

Name : _____

Area

DS4

Find the area of each circle. Round your answer to two decimal palces. (use $\pi = 3.14$)

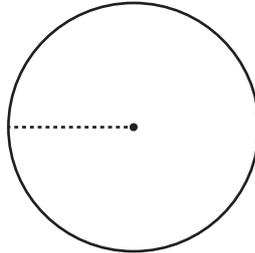

1)

Circumference = 65.77 yd

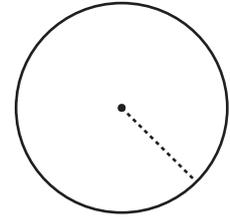

Area = _____

2)

Circumference = 103.78 ft

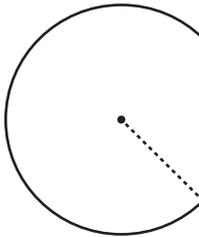

3)

Circumference = 49.28 in

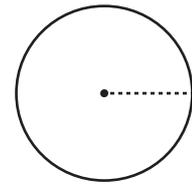

Area = _____

4)

Circumference = 13

Area = _____

Circumference = 26.22 ft

Area = _____

- 7) Joe purchased 32.75 in. What (use $\pi = 3.14$)

Area = _____

- 8) Leo is tasked with fencing a circular vegetable garden. If he has to use 35.6 yd of mesh to erect the fence, what is the area of the garden? Round your answer to two decimal places. (use $\pi = 3.14$)

Area = _____

the wheel was
o decimal places.

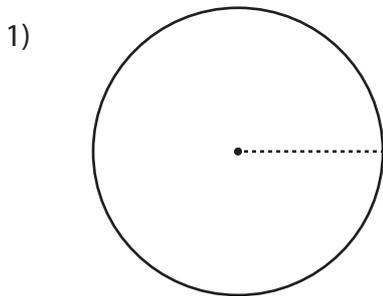

Name : _____

Answer key

DS4

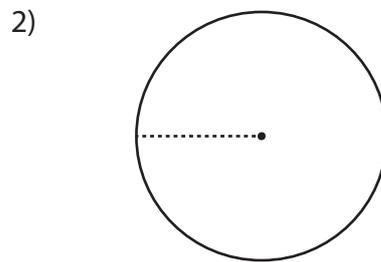

Area

Find the area of each circle. Round your answer to two decimal places. (use $\pi = 3.14$)

Circumference = 65.77 yd

Area = 344.4 yd²

Circumference = 103.78 ft
