

# Counting Backward by 10s

Count backward by 10s, and fill in the missing numbers on the placards.

1)

A row of six children holding placards. From left to right: a boy with a blank placard, a girl holding a placard with the number 100, a boy with a blank placard, a girl with a blank placard, a girl holding a placard with the number 70, and a boy holding a placard with the number 60.

2)

A row of six children holding placards. The second child from the left is partially obscured by a large blue preview box. The first child holds a placard with the number 70. The other children hold blank placards.

3)

A row of six children holding placards. The second child from the left is partially obscured by a large blue preview box. The other children hold blank placards.

4)

A row of six children holding placards. The second child from the left is partially obscured by a large blue preview box. The other children hold blank placards.

5)

A row of six children holding placards. From left to right: a boy with a blank placard, a boy holding a placard with the number 150, a boy holding a placard with the number 140, a girl with a blank placard, a boy with a blank placard, and a girl holding a placard with the number 110.
