Counting Backward by 11s

Count backward by 11s, complete the path, and help Carol find her way to the moon.

The worksheet features a dark grey background with a moon in the top left corner. A path of yellow stars is arranged in a zig-zag pattern, starting from the bottom right and ending at the moon. The numbers in the stars are: 220, 209, 198, 187, 176, 165, 121, 110, 99, 44, 33, 22, and 11. A rocket ship is at the bottom right, and an astronaut is inside. A central white box with a blue border contains the text 'PREVIEW' and promotional information for 'www.mathworksheets4kids.com'.
