- 1) Ron has a coupon worth \$10.00. If he has \$60.00, how much more money does he need?

- 2) Sam has \$25.68. If he buys a pair of sneakers for \$27.86, how much more money does he need?

- 3) Martha has enough money to buy a soccer ball on a trophy stand for \$22.49 and a pair of sneakers for \$27.86. How much money does she need?

- 4) Hanna has \$60.00 in her wallet. If she buys a cricket bat for \$50.25, how much money will she be left with?

- 5) Jerry chose a gift for his brother. If he paid \$30.00 at the counter, and the cashier gave him \$8.66 as change, which item did he buy at the store?
