

Multiplying Decimals - Word Problems

- 1) Mr. Danvers purchased 14.4 ounces of silver. If an ounce of silver cost \$22.36, how much did he pay in total? Round your answer to the nearest cent.

- 2) Sara practices running regularly. If her average is 0.6 miles per minute, how many miles does she run in 2.5 minutes?

- 3) An artist purchased 1.2 pounds of paint. If each pound of paint cost \$17.84, how much did the paint cost? Round your answer to the nearest cent.

- 4) Eddie went to the store and bought 3.5 pounds of Honeycrisp apples. If each pound of apples cost \$4.95, how much did he spend on the apples? Round your answer to the nearest cent.

- 5) Julie picked up 5.8 pounds of apples at the supermarket. If each pound of apples cost \$3.45, how much did she spend on the apples?
