

Name : _____

Division - Unit Price

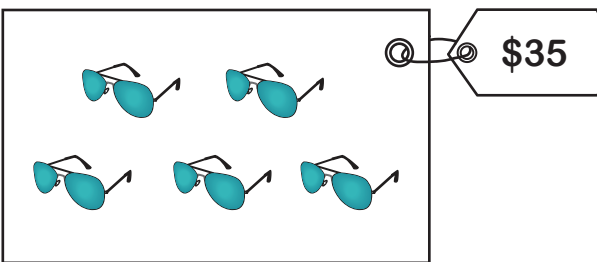

Find the price of each individual item in the package.

1) 

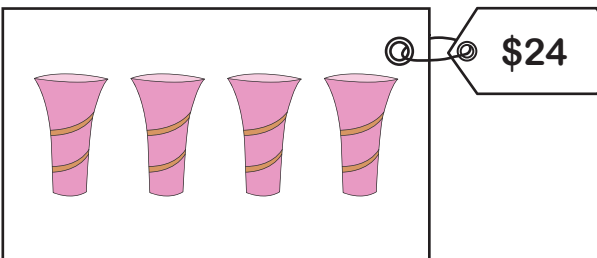

$$63 \div \underline{\quad} = \text{[tag]} \text{ [wallet]}$$

2) 

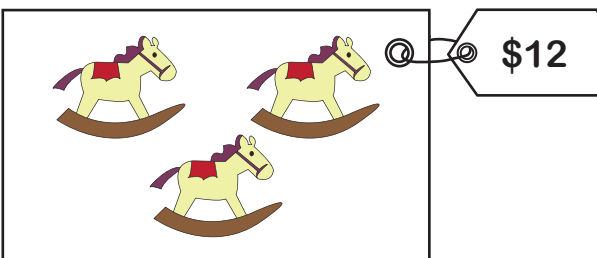

$$18 \div \underline{\quad} = \text{[tag]} \text{ [popcorn bucket]}$$

3) 

$$35 \div \underline{\quad} = \text{[tag]} \text{ [pair of sunglasses]}$$

4) 

$$24 \div \underline{\quad} = \text{[tag]} \text{ [water bottle]}$$

5) 

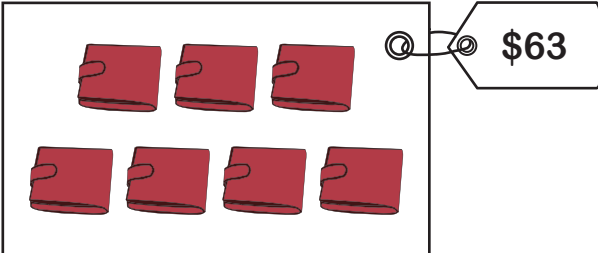

$$12 \div \underline{\quad} = \text{[tag]} \text{ [rocking horse]}$$

6) A pack of shampoo bottles costs \$10. There are 2 shampoo bottles in the pack. How much does each shampoo bottle cost?

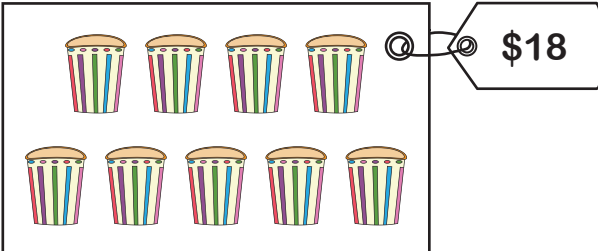

Name : _____

Division - Unit Price

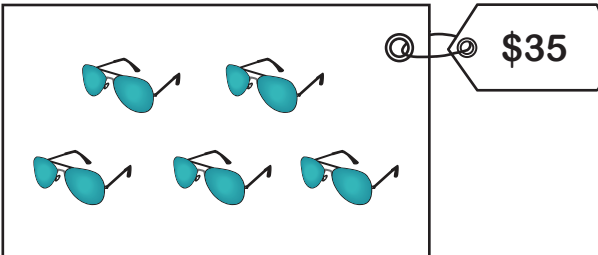

Find the price of each individual item in the package.

1) 

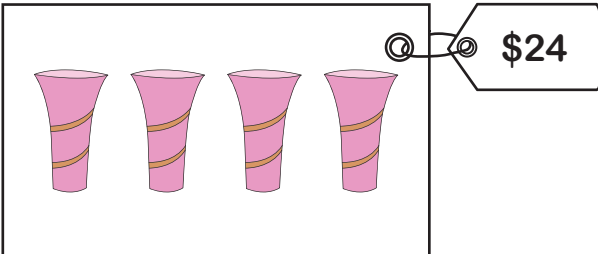

$$63 \div \underline{7} = \text{\$9}$$

2) 

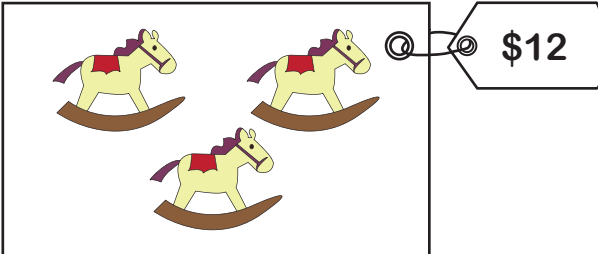

$$18 \div \underline{9} = \text{\$2}$$

3) 

$$35 \div \underline{5} = \text{\$7}$$

4) 

$$24 \div \underline{4} = \text{\$6}$$

5) 

$$12 \div \underline{3} = \text{\$4}$$

6) A pack of shampoo bottles costs \$10. There are 2 shampoo bottles in the pack. How much does each shampoo bottle cost?

\$5
