## Divisibility Rule

Sheet 1

A) Circle the numbers that are divisible by 2.

42,391      186      78      29      513      92,460

8,862      105,743      41,346      6,437      375,648      86,435

250,860      17      546,825      75,722      3,769      734

B) Circle the numbers that are divisible by 4.

25,368      7,526      317,740      945,341      32,844      512

645      3,892      2,442      15,012      52,186      8,409

53,420      301,570      481,664      225      837      6,236

C) Circle the numbers that are divisible by 8.

964,726      86,340      101,088      4,456      3,233      50,736

5,232      4,900      30,384      197,520      507,123      6,481

27,568      4,584      38,676      2,975      46,672      768,945
