## Division - Arrays

Sheet 3

- 1) A 3-tier shoe rack has 9 pairs of shoes. If all the tiers have the same number of pairs, how many pairs of shoes does each tier hold?

\_\_\_\_\_

- 2) Bob went to an eyeglass store where he saw 25 frames showcased in 5 racks with each rack having an equal number. How many frames were displayed in each rack?

\_\_\_\_\_

- 3) Mr. and Mrs. White went to a hat store. They found 18 hats displayed on display in 6 racks. How many hats were in each rack?

\_\_\_\_\_

- 4) In a CD rack at the store, there were 20 CDs placed equally in 5 rows. How many CDs were in each row?

\_\_\_\_\_

- 5) At the Easter Egg Hunt, Joshua gathered an equal number of red, blue and green eggs. He placed them in a 3-row egg holder, with each row holding a distinct color. If he had 12 eggs in total, how many were blue?
