

Name : _____

Adding Unlike Fractions

Proper: S4

1) $\frac{3}{4} + \frac{1}{2} + \frac{5}{8} =$

2) $\frac{5}{12} + \frac{11}{18} + \frac{15}{36} =$

3) $\frac{13}{45} + \frac{2}{3} + \frac{4}{9} =$

4) $\frac{8}{15} + \frac{2}{5} + \frac{9}{30} =$

5) $\frac{11}{20} + \frac{24}{40} + \frac{7}{10} =$

$\frac{5}{6} =$

7) $\frac{1}{2} + \frac{4}{6} + \frac{2}{3} =$

$\frac{12}{18} =$

9) $\frac{9}{14} + \frac{18}{28} + \frac{5}{7} =$

$\frac{3}{8} =$

11) $\frac{1}{4} + \frac{5}{8} + \frac{3}{24} =$

12) $\frac{7}{9} + \frac{16}{27} + \frac{2}{3} =$

13) $\frac{1}{2} + \frac{5}{6} + \frac{11}{12} =$

14) $\frac{3}{4} + \frac{14}{16} + \frac{7}{8} =$

Name: _____

Answer Key

Adding Unlike Fractions

Proper: S4

$$1) \frac{3}{4} + \frac{1}{2} + \frac{5}{8} = \frac{15}{8}$$

$$2) \frac{5}{12} + \frac{11}{18} + \frac{15}{36} = \frac{52}{36} = \frac{13}{9}$$

$$3) \frac{13}{45} + \frac{2}{3} + \frac{4}{9} = \frac{63}{45} = \frac{7}{5}$$

$$4) \frac{8}{15} + \frac{2}{5} + \frac{9}{30} = \frac{37}{30}$$

$$5) \frac{11}{20} + \frac{24}{40} + \frac{7}{10}$$

$$\frac{5}{6} = \frac{49}{24}$$

$$7) \frac{1}{2} + \frac{4}{6} + \frac{2}{3}$$

$$\frac{12}{18} = \frac{30}{18} = \frac{5}{3}$$

$$9) \frac{9}{14} + \frac{18}{28} + \frac{5}{7}$$

$$\frac{3}{8} = \frac{41}{32}$$

$$11) \frac{1}{4} + \frac{5}{8} + \frac{3}{24} = \frac{24}{24} = 1$$

$$12) \frac{7}{9} + \frac{16}{27} + \frac{2}{3} = \frac{55}{27}$$

$$13) \frac{1}{2} + \frac{5}{6} + \frac{11}{12} = \frac{27}{12} = \frac{9}{4}$$

$$14) \frac{3}{4} + \frac{14}{16} + \frac{7}{8} = \frac{40}{16} = \frac{5}{2}$$
