Fraction Activity Worksheet

1. Divide the rhombus into 4 equal parts. Shade 3 parts.
   What part of fraction shaded? _____________
   What part of fraction not shaded? _____________

2. Divide the rectangle into 5 equal parts. Shade 2 parts.
   What part of fraction shaded? _____________
   What part of fraction not shaded? _____________

3. Divide the triangle into 2 equal parts. Shade 1 part.
   What part of fraction shaded? _____________
   What part of fraction not shaded? _____________

4. Divide the circle into 8 equal parts. Shade 5 parts.
   What part of fraction shaded? _____________
   What part of fraction not shaded? _____________

5. Divide the trapezoid into 2 equal parts. Shade 1 part.
   What part of fraction shaded? _____________
   What part of fraction not shaded? _____________

6. Divide the hexagon into 6 equal parts. Shade 5 parts.
   What part of fraction shaded? _____________
   What part of fraction not shaded? _____________
Answer key

Fraction Activity Worksheet

1. Divide the rhombus into 4 equal parts. Shade 3 parts.
   
   What part of fraction shaded? $\frac{3}{4}$
   
   What part of fraction not shaded? $\frac{1}{4}$

2. Divide the rectangle into 5 equal parts. Shade 2 parts.
   
   What part of fraction shaded? $\frac{2}{5}$
   
   What part of fraction not shaded? $\frac{3}{5}$

3. Divide the triangle into 2 equal parts. Shade 1 part.
   
   What part of fraction shaded? $\frac{1}{2}$
   
   What part of fraction not shaded? $\frac{1}{2}$

4. Divide the circle into 8 equal parts. Shade 5 parts.
   
   What part of fraction shaded? $\frac{5}{8}$
   
   What part of fraction not shaded? $\frac{3}{8}$

5. Divide the trapezoid into 2 equal parts. Shade 1 part.
   
   What part of fraction shaded? $\frac{1}{2}$
   
   What part of fraction not shaded? $\frac{1}{2}$

6. Divide the hexagon into 6 equal parts. Shade 5 parts.
   
   What part of fraction shaded? $\frac{5}{6}$
   
   What part of fraction not shaded? $\frac{1}{6}$
