Total Shapes ____________

What fraction of shapes are purple? ____________

What fraction of shapes are green? ____________

What fraction of shapes are red? ____________

What fraction of shapes are not purple? ____________

What fraction of shapes are not green? ____________

What fraction of shapes are blue? ____________

What fraction of shapes are not red? ____________

What fraction of shapes are ____________?
Total Shapes: 26

What fraction of shapes are blue? \( \frac{3}{26} \)

What fraction of shapes are ? \( \frac{3}{26} \)

What fraction of shapes are ? \( \frac{5}{26} \)
