3) Runners in a local marathon were given a questionnaire to complete at the end of the race. The table below shows the completion times of the runners and the number of runners who completed the marathon in each time range.

89 69
60 74

Time Range (Minutes)	Frequency
51 - 60	
61 - 70	
71 - 80	
81 - 90	
91 - 100	

i) How many runners finished the marathon in 80 minutes or less?

ii) Which time range had the highest number of finishers?

iii) What is the total number of participants who completed the marathon?
