Comparing Sides and Corners

1)

Number of sides: _______          Number of sides: _______

Which shape has fewer sides?   a) octagon          b) parallelogram

2)

Number of corners: _______

Which shape has more corners?   a) pentagon

3)

Number of corners: _______

Which shape has fewer corners?   a) octagon          b) kite

4)

Number of corners: _______

Which shape has more corners?   a) octagon          b) kite

5)

Number of sides: _______          Number of sides: _______

Which shape has more sides?   a) trapezoid          b) triangle
