

# Identifying Graphs

Two-step: S3

Choose the correct graph that best describes the solution for each inequality.

1)  $-25 \leq 4x - 9 \leq 3$

2)  $4x - 53 > 3$  or  $\frac{x+7}{5} \geq 1$

3)  $-31 \leq \frac{3x}{2} - 4 < 6$

6

5)  $3 \leq \frac{x-9}{2}$  and

7)  $-7x \geq 22$
