

Integers - True or False?

Sheet 3

Read the statements below and label them true or false.

1) Positive integers are whole numbers that are greater than zero. _____

2) Zero is greater than every negative integer. _____

3) Every positive integer is greater than every negative integer. _____

4) In a number line, zero is the midpoint between positive and negative integers. _____

5) The product of two negative integers is a positive integer. _____

6) The sum of two integers is always an integer. _____

7) Positive integers are also called natural numbers. _____

8) The sum of two negative integers is negative. _____

9) Integers also include fractional numbers. _____

10) All whole numbers are integers. _____
