

Going Green on Halloween

by Liana Mahoney

Halloween is a fun holiday. But when it's over, how much gets thrown away? Too much garbage is bad for the health of our planet. With some small changes, you can help. This year, "go green" on Halloween!

Halloween costumes are expensive. In the United States, Americans spend over three billion dollars on costumes every year. Many throw them away after using them once. Many throw away costumes made of plastic. Consider a used costume. Reuse costumes. Wash clothing and other items. Recycle. Don't put costumes in the garbage. On Halloween, use items made from recycled materials.

If you are giving out candy, use fresh fruit. Apples, bananas, or oranges. They're healthier, too.

When Halloween is over, what will you do with that jack-o-lantern? You could donate it to a farm to be fed to animals. Another option is to compost it. This means putting it outside and letting it break back down into soil that can be used for gardening.

Whether you go as a ghost or a cat this Halloween, it's easy to go green on Halloween. On the day of trick-or-treating, be sure to treat your planet well!
