

## Editing and Proofreading

### Proofread and rewrite the passage.

Have you heard of the liberty bell. It stands for freedom. It was used by Americas founders. The bell was made over 200 years ago. It was made from metal like tin and copper. It were made by the whitechapel bell foundry in london. The bell has cracked the first time it was ring. It cracked many times since then. The bell is no longer rung. This is to protect it. The last time it was rung was on 1846. That was in honor of george each year. It is at a plac the wood that holds th stamps. It is very specia

ple are visiting the bel  
; very first yoke A yoke is  
on coins and postage

**Editing and Proofreading**

**Proofread and rewrite the passage.**

Have you heard of the liberty bell. It stands for freedom. It was used by Americas founders. The bell was made over 200 years ago. It was made from metal like tin and copper. It were made by the whitechapel bell foundry in london. The bell has cracked the first time it was ring. It cracked many times since then. The bell is no longer rung. This is to protect it. The last time it was rung was on 1846. That was in honor of george Washington. Every year people are visiting the bell each year. It is at a place called Liberty Bell Hall. It still hangs from its very first yoke. A yoke is the wood that holds the bell. A picture of the bell has been printed on coins and postage stamps. It is very special to see this piece of history.
