

**Hyperbole****A Cold, Cold World**

by Marie Smith

Underline the instances of hyperbole in the poem.

In winter's grasp, the world's a snow-white sea,

Where frosty winds are loud with wild decrees

Snow-capped

Icy rivers flow

The cold's embrace

And snowflakes

In this frozen

Each snowflake whispers tales of might.

Mountains of snow pile high to the sky,

In winter's embrace, even time seems to sigh.
