

Phrasal Verbs**Alex's Flying Adventure**

Read the story, and underline the phrasal verbs in it.

Alex, a young inventor, had always dreamed of creating something extraordinary, and one day inspiration struck. He decided to set out on a quest to build a flying machine.

With Alex snuck to the outskirts of his workshop. He glanced at his sketches and blueprints, feeling

Hours passed as he worked down the last piece of his triumphant creation. He finally completed

But just as he was about to fly, an unexpected obstacle. A group of curious children had knocked at the door of the warehouse, drawn by the sound of Alex's work.

Alex pounced up to the door and quietly meowed, hoping to scare away the children. But instead of squawking in fear, the children laughed and pushed open the door, eager to see what Alex was up to.

Thinking quickly, Alex grabbed hold of the control panel of his flying machine and activated the engines. With a roar, the machine lifted off the ground, surprising the children and leaving them stunned in disbelief.

As the flying machine glided across the sky, Alex could not help but smile at the sight below. He had achieved his dream of creating something extraordinary, and he knew that he would always be known for his inventions.

And so began a series of new adventures.
