

# Making Predictions

Read each statement. Determine whether it is a prediction or an inference and check the correct option.

Prediction

Inference

1) The bike on the ground has a bent wheel; it looks like someone fell.

2) The oven timer is counting down; the cookies will be ready soon.

3) The baby is rubbing her eyes; she will probably fall asleep.

4) The boys might fall asleep.

5) The class have been talking.

6) The boy is holding his stomach; he will probably be unwell.

7) The girl is putting on a life preserver; she will go swimming.

8) The book is open; the person was reading.

9) The movie lights are on; the movie will start shortly.

10) The bus is late; it will probably arrive any moment.

11) The cat is meowing; it probably wants to go outside.

12) The classroom clock says 3:00, and students are packing up; school is almost over.
