# Interpreting Line Plot

CS1

Daniel, the Manager of Lava's bakery collected data on the sale of cookies made in a week. The line plot below represents the number of cookies sold within a period of seven days. Read the line plot and answer the questions.

## Cookie Sales

**X = 4 Cookies**

- 1) How many cookies were sold on Monday? \_\_\_\_\_
- 2) On which day did the bakery record the maximum sales of cookies? \_\_\_\_\_
- 3) How many cookies were sold on Wednesday? \_\_\_\_\_
- 4) On which day did Lava's bakery record the maximum sales of cookies? \_\_\_\_\_
- 5) How many cookies were sold over the weekend? \_\_\_\_\_
