

Name : _____

Finding Mean

Sheet 2

- 1) Liam, a delivery contractor, uses a fleet of vehicles to deliver packages across 15 city zones in a day. Use the data below to find the mean number of packages delivered.

- 2) Stella, a librarian, recorded the number of visitors to the library over 30 days. Find the mean number of visitors per day.

Package Delivered x	Number of Zones f	$f \cdot x$	Number of Visitors x	Number of Days f	$f \cdot x$
15	2			6	
18	4		13	5	
20	5			3	
25			19	7
