- 1) If you buy a can of tomato soup and a can of cranberry juice, how much will you pay in total?
- 2) You purchased a gallon of milk and a jar of jam. How much change do you receive after the purchase if you paid with a \$10.00 bill?
- 3) How much money do you need to buy a can of apple juice, a can of soda, and a jar of peanut butter?
- 4) If you buy a pack of salt and a pack of coffee, what is the total amount you will pay?
- 5) Yesterday, you bought some items for \$9.64. If you purchase a jar of jam today, how much less money will you spend today compared to yesterday?
