

# Money Word Problems

## Ronald's Clothing Store

1) Carla buys a brown dress worth \$24.25. If she gave the cashier \$50.00, how much change did she receive?

\_\_\_\_\_

2) The salesman sold 12 yellow dresses worth \$18.00 each. How much money did he earn from selling these dresses?

\_\_\_\_\_

3) Diana buys blue dresses worth \$40.00. How many blue dresses does she buy?

\_\_\_\_\_

4) Lisa bought two black dresses and a green dress. If she gave \$50.00 to the cashier, how much change did she receive?

\_\_\_\_\_

5) Ronald's clothing store sold 5 purple dresses on Friday. If they sell four times as many purple dresses on Saturday as they did on Friday, how much money will they earn on Saturday from purple dresses?
