

## Subtracting Money

Sam, an employee at the sports store, has carefully arranged the following items on the display stand for customers to view and explore.

- 1) Mark has a discount on a tennis paddle. How much did he save on the purchase? \_\_\_\_\_
- 2) Dennis paid \$60.00 for a pair of sneakers. What item did he buy? \_\_\_\_\_
- 3) Sneakers and goggles are currently on sale. How much more do the sneakers cost compared to the goggles? \_\_\_\_\_
- 4) Henry picked up an item from the store. If he paid \$40.00 at the counter, and the cashier gave him \$14.51 as change, which item did he buy? \_\_\_\_\_
- 5) Warren bought a rugby ball to play with his friends. If he paid \$20.00, how much change did he receive? \_\_\_\_\_
