

## Subtracting Money

Appliance Depot, a well-known home appliance retailer, is offering special discounts on the following items.

1) Jade had \$100.00 in her wallet. How much money will she have left after purchasing items worth \$48.75?

2) Vivien has enough money to buy a lunch box. How much more money does she need to buy a tray of mugs?

3) Zack has \$40.00 in his wallet. How much money will be left if he buys the frying pan from the store?

4) Mr. Saunders visited the store to buy a lunch box. If he used a \$5.00 coupon, how much did he pay after the discount?

5) The customer paid the cashier with a \$50.00 and received \$1.25 as change. What item did the customer buy?
