Sheet 1

Complete the equation.

1)  $6,538 = \underline{\quad\quad\quad}$  thousands +  $\underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$6,538 = \underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$6,538 = \underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$6,538 = \underline{\quad\quad\quad}$  ones

2)  $3,159 = \underline{\quad\quad\quad}$  thousands +  $\underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$3,159 = \underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$3,159 = \underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$3,159 = \underline{\quad\quad\quad}$  ones

3)  $1,647 = \underline{\quad\quad\quad}$  thousands +  $\underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$1,647 = \underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$1,647 = \underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$1,647 = \underline{\quad\quad\quad}$  ones

4)  $4,293 = \underline{\quad\quad\quad}$  thousands +  $\underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$4,293 = \underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$4,293 = \underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$4,293 = \underline{\quad\quad\quad}$  ones

5)  $9,876 = \underline{\quad\quad\quad}$  thousands +  $\underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$9,876 = \underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$9,876 = \underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$9,876 = \underline{\quad\quad\quad}$  ones

6)  $2,705 = \underline{\quad\quad\quad}$  thousands +  $\underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$2,705 = \underline{\quad\quad\quad}$  hundreds +  $\underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$2,705 = \underline{\quad\quad\quad}$  tens +  $\underline{\quad\quad\quad}$  ones

$2,705 = \underline{\quad\quad\quad}$  ones

**Place Value**

Sheet 1

Complete the equation.

1)  $6,538 = \underline{6}$  thousands +  $\underline{5}$  hundreds +  $\underline{3}$  tens +  $\underline{8}$  ones

$6,538 = \underline{65}$  hundreds +  $\underline{3}$  tens +  $\underline{8}$  ones

$6,538 = \underline{653}$  tens +  $\underline{8}$  ones

$6,538 = \underline{6,538}$  ones

2)  $3,159 = \underline{3}$  thousands +  $\underline{1}$  hundreds +  $\underline{5}$  tens +  $\underline{9}$  ones

$3,159 = \underline{31}$  hundreds +  $\underline{5}$  tens +  $\underline{9}$  ones

$3,159 = \underline{315}$  tens +  $\underline{9}$  ones

$3,159 = \underline{3,159}$  ones

3)  $1,647 = \underline{1}$  thousands +  $\underline{6}$  hundreds +  $\underline{4}$  tens +  $\underline{7}$  ones

$1,647 = \underline{16}$  hundreds +  $\underline{4}$  tens +  $\underline{7}$  ones

$1,647 = \underline{164}$  tens +  $\underline{7}$  ones

$1,647 = \underline{1,647}$  ones

4)  $4,293 = \underline{4}$  thousands +  $\underline{2}$  hundreds +  $\underline{9}$  tens +  $\underline{3}$  ones

$4,293 = \underline{42}$  hundreds +  $\underline{9}$  tens +  $\underline{3}$  ones

$4,293 = \underline{429}$  tens +  $\underline{3}$  ones

$4,293 = \underline{4,293}$  ones

5)  $9,876 = \underline{9}$  thousands +  $\underline{8}$  hundreds +  $\underline{7}$  tens +  $\underline{6}$  ones

$9,876 = \underline{98}$  hundreds +  $\underline{7}$  tens +  $\underline{6}$  ones

$9,876 = \underline{987}$  tens +  $\underline{6}$  ones

$9,876 = \underline{9,876}$  ones

6)  $2,705 = \underline{2}$  thousands +  $\underline{7}$  hundreds +  $\underline{0}$  tens +  $\underline{5}$  ones

$2,705 = \underline{27}$  hundreds +  $\underline{0}$  tens +  $\underline{5}$  ones

$2,705 = \underline{270}$  tens +  $\underline{5}$  ones

$2,705 = \underline{2,705}$  ones
