

# Angles in Polygon

Find the measures of the indicated angles.

1)

Sum of the interior angles = \_\_\_\_\_

$m\angle V = \underline{\hspace{2cm}}$  ;  $m\angle X = \underline{\hspace{2cm}}$

2)

Sum of the interior angles = \_\_\_\_\_ ;  $x = \underline{\hspace{2cm}}$

$m\angle T = \underline{\hspace{2cm}}$  ;  $m\angle P = \underline{\hspace{2cm}}$

3)

Sum of the interior angles = \_\_\_\_\_

$m\angle W = \underline{\hspace{2cm}}$  ;  $m\angle T = \underline{\hspace{2cm}}$

Sum of the interior angles = \_\_\_\_\_ ;  $x = \underline{\hspace{2cm}}$

$m\angle H = \underline{\hspace{2cm}}$  ;  $m\angle G = \underline{\hspace{2cm}}$
