

Name : _____

Sum of Interior Angles

ES1

Find the sum of the interior angles of each polygon.

1)

Number of sides = _____

Sum of the interior angles = _____

2)

Number of sides = _____

Sum of the interior angles = _____

3)

Number of sides = _____

Sum of the interior angles = _____

4)

Number of sides = _____

Sum of the interior angles = _____

5)

Number of sides = _____

Sum of the interior angles = _____

6)

Number of sides = _____

Sum of the interior angles = _____

7)

Number of sides = _____

Sum of the interior angles = _____

8)

Number of sides = _____

Sum of the interior angles = _____

9)

Number of sides = _____

Sum of the interior angles = _____

Name : _____

Answer key

Sum of Interior Angles

ES1

Find the sum of the interior angles of each polygon.

1)

Number of sides = 8

Sum of the interior angles = 1080°

2)

Number of sides = 5

Sum of the interior angles = 540°

3)

Number of sides = 6

Sum of the interior angles = 720°

4)

Number of sides = 4

Sum of the interior angles = 360°

5)

Number of sides = 9

Sum of the interior angles = 1260°

6)

Number of sides = 7

Sum of the interior angles = 900°

7)

Number of sides = 10

Sum of the interior angles = 1440°

8)

Number of sides = 8

Sum of the interior angles = 1080°

9)

Number of sides = 3

Sum of the interior angles = 180°
