## Constant of Proportionality

Sheet 5

Find the constant of proportionality(k) for each linear relationship.

1)  $14y - 84x = 0$

2)  $91y = 26x$

3)  $\frac{24y}{x} = 15$

4)  $\frac{12y}{26} - 1 = 0$

5)  $8x = 8y$

7)  $\frac{5y}{85x} = 1$

9)  $12y = 144x$

10)  $\frac{4y}{x} = 76$
