

Properties of Quadratic Function

Find the properties of each quadratic function.

1) $f(x) = -5x^2 + 4x$

2) $f(x) = 16x^2 + 24x + 5$

Domain _____

Range _____

x-intercepts _____

y-intercept _____

Vertex _____

Maximum value _____

Axis of symmetry _____

Open up or down : _____

3) $f(x) = 4x^2 - 12x + 5$

Domain _____

Range _____

x-intercepts _____

y-intercept _____

Vertex _____

Minimum value _____

Axis of symmetry : _____

Open up or down : _____

Axis of symmetry : _____

Open up or down : _____
