

Name : _____

Trapezoid - Angles

A) Find the measure of the indicated angle in each trapezoid.

$m\angle ZWX =$ _____

$m\angle KLC =$ _____

$m\angle XYV =$ _____

B) Find the measure of the indicated angle.

$m\angle BGF =$ _____

$m\angle GDE =$ _____

$m\angle RCD =$ _____

$m\angle SCD =$ _____

7) Find $m\angle CXW$, if CDEF

8) PQRS is a right trapezoid. Determine $m\angle MNQ$ and $m\angle QRS$.

Trapezoid - Angles

A) Find the measure of the indicated angle in each trapezoid.

$m\angle ZWX = \underline{90^\circ}$

$m\angle KLC = \underline{48^\circ}$

$m\angle XYV = \underline{44^\circ}$

B) Find the measure of the indicated angle.

$m\angle BGF = \underline{102^\circ}$

$m\angle GDE = \underline{78^\circ}$

$m\angle RCD = \underline{59^\circ}$

$m\angle SCD = \underline{121^\circ}$

7) Find $m\angle CXW$, if CDEF

$m\angle CXW = \underline{39^\circ}$

8) PQRS is a right trapezoid. Determine $m\angle MNQ$ and $m\angle QRS$.

$m\angle MNQ = 106^\circ ; m\angle QRS = 106^\circ$
