

Name : _____

Area of a Rectangle

L2S2

Round your answer to two decimal places.

- 1) Janet paints one of the walls in the living room. The height and width of the wall are 17.5 feet and 8.6 feet respectively. If the cost of painting is \$3.50 per square feet, how much does Janet spend altogether?

- 2) Brenda fertilizes her rectangular flower bed. The flower bed is 5.4 yards wide and 10 yards long. If one bag of fertilizer covers 25 square yards, how many bags of fertilizer are required?

- 3) Students of North High School made a banner for a sports team. The width of the banner is 12 feet and the length is 15 feet. What is the area of the banner in square feet?

- 4) The surface of a kite is a rectangle. The width of the kite is 18 inches and the length is 25 inches. Determine the area of the kite.

- 5) A rectangular billboard is 10.5 feet high and 36 feet wide. Calculate the area of the billboard and express the answer in square inches.
