## Area of a Rhombus

T1S3

Find the area of each rhombus.

1)

$$SU = 2\frac{4}{7} \text{ in} ; VT = 7\frac{1}{2} \text{ in}$$

Area =

2)

$$PR = 18 \text{ in} ; QS = 2 \text{ in}$$

$$LN = 1\frac{1}{6} \text{ ft} ; KM = 1\frac{5}{7} \text{ ft}$$

Area =

4)

$$AC = \frac{10}{9} \text{ yd} ; BD = 9 \text{ yd}$$

Area =

$$BD = 16 \text{ in} ; CE = 3\frac{1}{4} \text{ in}$$

Area =

7)

$$QS = 3\frac{1}{5} \text{ ft} ; TR = \frac{17}{8} \text{ ft}$$

Area =

$$CE = \frac{9}{7} \text{ in} ; DF = \frac{8}{9} \text{ in}$$

Area =

$$VX = \frac{12}{5} \text{ yd} ; UW = 15 \text{ yd}$$

Area =

**Area of a Rhombus**

T1S3

Find the area of each rhombus.

$SU = 2\frac{4}{7} \text{ in} ; VT = 7\frac{1}{2}$

Area =  $\frac{9}{2}$  or  $4\frac{1}{2}$

$18 ; 2$
