

Circle the picture that is different in each row.

1)

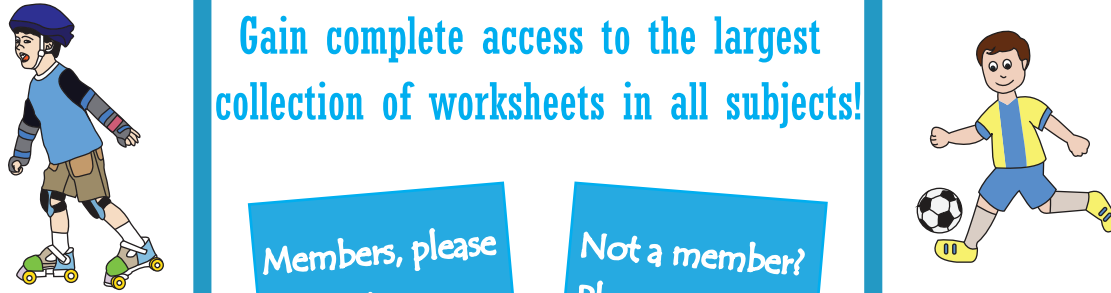

This row contains four illustrations of food. From left to right: a bowl of mushroom soup, a bowl of vegetable soup, a plate of fried dumplings, and another bowl of vegetable soup. The dumplings are the only item that is not a soup.

2)

This row contains four illustrations of sea creatures. From left to right: a green fish, a pink fish, another pink fish, and a green crab. The crab is the only item that is not a fish.

3)

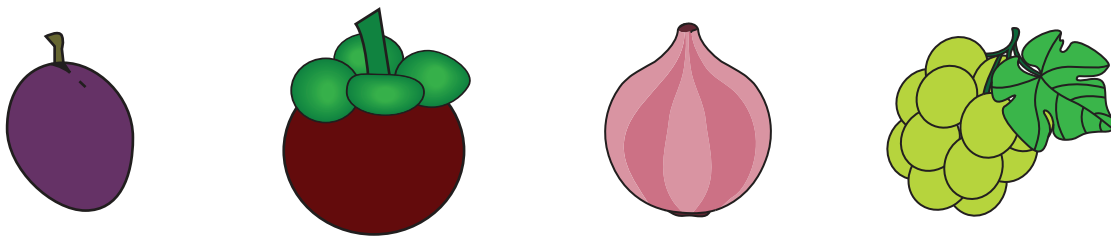

This row contains two illustrations of boys. On the left, a boy is on a skateboard. On the right, a boy is with a soccer ball. The skateboarder is the only one not playing soccer.

4)

This row contains two illustrations of nature items. On the left is a red mushroom with white spots, and on the right is a purple flower. The flower is the only one that is not a mushroom.

5)

This row contains four illustrations of fruits/vegetables. From left to right: a single purple grape, a red fruit (possibly a tomato or apple), a pink onion, and a bunch of green grapes. The onion is the only one that is not a fruit.
