

## Creating Scatter Plots

- 1) A statistics class collects data on students' height and shoe size. Make a scatter plot to show the data.

Student Height (inches)	Shoe Size
57	6
60	7
65	8
70	9
75	10
80	11

- 2) Oliver, a scatter plot

Daily Practice (minutes)	Score (%)
15	40
20	50
30	60
45	70
50	80
60	90
70	100
90	110

- 3) A fitness coach tracks the number of servings of vegetables per week and the fitness score. Make a scatter plot to show the data.

Servings per Week	Fitness Score
4	85
5	80
7	75
8	70
9	65
10	60
