

## Creating Scatter Plots

- 1) Mr. Wright plans to buy a used car and studies how a car's age affects its value. Make a scatter plot to show the data.

Car's Age (Years)	Resale Value (in thousands dollars)
1	17
2	17
3	17
5	17
7	17
8	17
9	8
10	6

# PREVIEW

- 2) Ralph runs courses.

Number of Courses	Resale Value (in thousands dollars)
10	25
20	75
30	100
40	120
50	140
60	160
70	180
80	200
